**Purpose of abstract:** talk and/or poster (please specify at the top of the page).

This document presents how your abstract should be prepared for submission. The abstract **cannot exceed one A4 page**. The size of the margins should be chosen as follows: top, bottom, left and right – 20mm.

Numbered equations are placed on a separate line and centered. The mathematical symbols are typeset in standard notation: functions and variables in *italic*, standard functions (sin, exp, ...), mathematical constants (e=2.71828..., i<sup>2</sup>=-1; etc.), differential and other symbols in a regular (upright) mode. When referring to the equations in the text, enclose their numbers in parentheses, e. g., Eq. (1):

## **Formula, (if any) (1)**

Write the link to the references in angular brackets [1]. The list of the references should be written in 8 pt. Times New Roman font.

The abstracts will be printed in greyscale (color online). Please consider it when preparing the figures to avoid ambiguities in greyscale-printed document. The quality of photos should be at least 150 dpi.
