

The jIAPS Article Contest 2017

Don't miss out on the opportunity of winning the participation fee for this year's [International Conference of Physics Students](#)! If there's a physics idea you'd like to share with your colleagues from all around the world, you have a chance to get it published in the journal of the IAPS (jIAPS) – and the best article will win the full ICPS2017 participation fee (190€).

In a first round we will be receiving articles until 28 February 2017.

Rules:

1. The article must be written in English.
2. Any equations should be represented using LaTeX.
3. Any references must be made in APA or in bibTeX.
4. One must submit a physics related scientific article in the range of 1-2 pages when images are included, specifically 500 to 1000 words.
5. Articles will be judged on how well the knowledge is converted into understandable language which is neither too complex nor too simplistic.

All articles must be send to: `jiaps(at)iaps(dot)info`

Disclaimer:

The contest will not be held if we do not receive enough applications.

Non-scientific articles – e.g. on activites by our members – are also of interest to jIAPS and can have the same length as a scientific article but don't take part in the competition.
